Universal Capper

Lifetime warranty. Called the best universal capper in the world. Holds 100 caps. Works on most revolvers except Remington and is great for inline rifle actions. Simple to operate, even while wearing gloves. *Measures 3-1/16" x 2" x 13/32"*

Brass	CP-2	24.25
German Silver	CP-3	28.75
Brass Matte	CPM-2	21.00
German Silver Matte	CPM-3	24.75

Rifle Capper

Lifetime warranty. Called the best rifle capper in the world. Holds approximately 75 caps. Works with any caps for rifles or shotguns and may work on some inline action rifles, but WILL NOT work on revolvers. Simple to operate, even while wearing your gloves. *Measures 3-9/16" x 1-3/8" x 13/32"*

Straight Line 209

PrimerDispenser

This is our own design of a 209 primer dispenser. Built to last, it is made of solid Brass. Holds 12-209 Primers and comes with a handy built-in decapper. Sturdy spring steel carrying lanyard ring. Best of all, it works on most rifles requiring the 209 primer ignition system. Patented. *Measures 4-1/2" x 7/16" including lanyard ring.*

Straightline 209	SL209	10.00
------------------	-------	-------

Universal Straight Line Capper

Solid metal body constructed of brass. Unlike other brands, this body is NOT made from tubing. The precision channel is fabricated with just enough space for smooth movement of caps. Holds 20 caps. Will feed caps automatically when held in a vertical position while capping the nipple. Works well with revolvers, rifle, shotguns and inline action. *Measures 4-1/2" x 1/4" x 1/4"*

Universal Straightline Capper	SLC-2	10.75
With Black Oxide	SLC-BO	6.25

Straight Line Musket Capper

TDC introduced an industry first – a new straight line musket capper for winged caps. This patented capper is built to hold both 4 and 6 wing caps. Holds 12 caps. Made from Brass. Works with any rifle needing musket caps. Designed with a convenient side loading slot with tension spring release. *Measures 5-1/4" long x 9/16" x 7-1/16" high*

Musket Capper	SLMC-2	15.50
With Black Oxide	SLMC-BO	9.25

Plain Funnel

Our plain funnel is formed of solid brass with a rolled rim at the top for added strength. The funnel is 1-1/2" in diameter and approximately 13/16" long; the hole at the bottom is 1/4" inner diameter. This funnel has many uses; we use it in four different descriptions in this catalog. You can use it to fill any small container of all types. It is also great to solder onto a brass tube for a drop tube. Other popular uses are listed with our other types of funnels.

Brass Funnel	FL-B	6.00
--------------	------	------

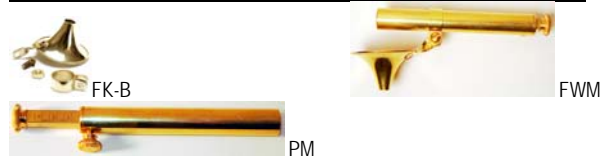

Filling Funnel with Handle

Brass funnel, hardwood handle. Hundreds of uses: filling horns, flasks, shot pouches, salt and pepper shakers and loading guns, cartridges, etc. *Measures 6" long x 1-1/2" wide and 7/8" high*

Filling Funnel	FW-H	14.00
----------------	------	-------

Deluxe Powder Measure with Funnel

Our Deluxe Powder Measure with Funnel (code: FWM) is made of solid brass and contains two major parts. The powder measure (code: PM) is graduated in 5-grain increments with thumb screw to lock it securely in place. This measure has graduations up to 120 grains. The funnel kit (code: FK-B) consists of our standard funnel with a bracket riveted on a 1/2" diameter clamp. The funnel kit will quickly attach to any powder measure with a 1/2" diameter barrel.

Funnel Kit (w/clamps & screws)	FK-B	9.00
Powder Measure	PM	9.00
Deluxe Powder Measure (W/Brass Funnel)	FWM	17.70

Flask Filling Funnel

Solid brass construction. Designed to thread into powder flasks, powder horn valves and some powder horns. Designed to thread in just enough without damaging sliding gate. Also great for making a drop tube. *1-1/2" dia x 2-3/16" long.*

Flask Filling Funnel	FFF	10.00
----------------------	-----	-------

Fixed Powder Measures

New this year, fixed powder measures for just the right amount! Each one has the grain amount stamped right on it for easy reading. Made of quality brass tubing with a perfect top for hanging around your neck for easy use in the field.

Deluxe Round with Double Wedding Bands

Used on many trade guns, fowlers and jaegers as well as single-barrel shotguns. With the double thumb piece, it is a beautiful, authentic pipe for the builder. The tang is left wide and plain for the builder to taper or shape to fit a certain style of gun he is copying. The ends of the pipe are expanded or raised to look like double wedding bands.

Plain Round Thimbles - Half Stock

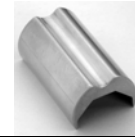

Similar to the full stock plain pipe sets except shorter in length like the originals. Lower pipe has a tab for pinning to the stock. Uppers are plain round tubes with no tabs for soldering directly to the barrel rib.

Ramrod Groove Nosecaps

This style is not for early rifles as is our low profile. Use on very late percussion era full stock rifles. Very well suited for use on half stock rifle.

Nosecaps

Plain, Flat, Oval Style Nosecaps

Has a low profile, slightly oval with the sides curved in at the top like the originals. They are 2" long and constructed of two pieces of material silver soldered together and the muzzle cut for the proper barrel size.

Chevron Nosecaps

Used by many early makers such as Frederic and Jacob Sell and John Shiver. Very distinctive looking and authentic.

Hawken Style Nosecaps – Half Stock

An exact copy of the nose cap used on two different Hawken rifles. It features a ramrod groove and is tapered toward the front. The front is pinched inward as were the originals. Available in 1" size only.

Patch Boxes

These patch boxes are made from .050 thick brass with nicely rolled hinges. With die cut boxes, a maker with a stock profiling machine can make one set-up, and all the same style boxes will fit the cut-out. Each box contains a high quality spring and screw lid operation; the pawl is already installed. Box is curved to fit the stock contour.

For the builder who may want a special patch box or would like to cut and shape to his liking, the two or four piece blank would be nice. The hard part is already finished. Made from .050 thick brass and curved to help the builder even more. Pawl already installed, included quality tempered spring and screw.

Knife Hilts

NEW Our knife hilts are now available in 6 different slot sizes, some in rectangle, some in oval and different thicknesses of material. Our hilts are all die blanked from solid bar stock with a sharp rectangular slot in the center to accept the tang. Specify slot opening, thickness and material when ordering.

PLEASE call or email for a detailed size chart showing actual sizes of hilts and slots.

Miscellaneous

Leather Needle

Durable enough to withstand the rigors of most any leather worker. The needle is 6" long and has a triangle point that can be easily sharpened with a stone or file. Also, it has a large eye for artificial sinew.

LN-1 2.50

Medallions

French Medallions	MF-	1.35
English Medallions	ME-	1.35
German Silver Medallions		1.55

Hat Pins

These small pins are finely detailed with a real wood handle and metal head and can be securely held in place with its strong clasp. Many uses such as a tie tack, hat or lapel pin.

THP	4.50
FLP or CLP	5.25

Trekker Lantern

With a folding handle for easy packing! Great uses for the backpacker, hunter or just a nice decoration for your home. 4" high and 1-5/8" wide, perfect for small beeswax candle or tea light as shown.

Trekker Lantern in Brass	TREK-B	14.50
Trekker Lantern in Copper	TREK-C	14.50

***Please note, also new are the Antique Brass Buttons. Call for a free sample!**

Gun shown on front cover was made by Michael A. Meese and displays many of our fine products.

→ If there are any discrepancies with an order, we expect to be contacted within 7 days of shipment.

→ Due to fluctuating material costs, prices and availability are subject to change without notice.

→ If you order online, the shipping rates are as follows:

.01 to 19.99 = \$4.00
20.00 to 49.99 = \$5.00
50.00 to 79.99 = \$6.50
80.00 to 139.99 = \$8.50
200.00 and up = \$10.00

→ If you order via phone, fax or email, and the item is light in weight, the cost of shipping will be less.
